Town Location (*circle one*)

Notes About Location

Temperate Continental Desert Tropical Polar	
---	--

How will waste be *reduced*?

How will waste be *managed*?

--

--

How will the town be designed for sustainability and environmental protection?

Other Details to Consider

What kinds of rules or laws will your town have that lead to greater sustainability?

How will you make it easier for manufacturers, stores, restaurants, and/or consumers to make more sustainable choices?

What innovative new things could your town try when it comes to waste reduction and disposal?
